In southwest Russia, in the region of Lutsk, fresh advances against the Austro-Hungarians are reported by the Russian war office, as likewise is the case across the border 'through East Galicia. Although the Austrians at numerous points are vigorously counter-attack-ing, the only place where the Rus-sians have been forced to give ground before them was near Bobulintze, north of Buczacz in Galicia, where the Austrians were reinforced by German troops. Garretson's prediction was prompted by the fact that during the day the

conference suddenly was halted when the railroads' "contingent" proposi-tion, tentatively granting the de-manded eight hour day, but refusing double compensation for double ser-vice, was rejected.

Mr. Garretson and the other broth-erbood leaders, stated that if the con-

Washington, June 12.—Secretary Baker announced late today that one housand additional coast artillery men and a battalion of engineer troops from this city had been ordered to the Mexican border for patrol duty. In all about 1,400 men will be added to General Funston's command. To Strengthen Border Guard.

Secretary Baker said the additional force had been ordered to the border to strengthen the guard along the American side of the line. The movement, he added, was not the result of any new advices to the state department as to disturbed conditions in Mexico.

Artillery Troops From Atlantic Coast. The artillery troops will be assembled from numerous posts along the Atlantic coast. They will be taken from the batteries where the largest number of men are posted so that adequate guards may be left to take care of the big guns.

Funston to Assign Positions. The engineer troops, Companies A, B, C and D, which comprise a first battalion of the corps, are stationed at Washington barracks here. Small detachments from this battalion are on duty at the civilization training camps at Plattsburgh, N. Y., and Fort October process. Oglethorpe, Ga. General Funston and General Wood, commander of the eastern department, will confer as to whether these detachments can be spared from the cacps. The new forces will be disposed along the border as General Funston may direct. It is understood the engineer bat-talion will go to San Antonio.

SPREAD OF ANTI-AMERICAN FEELING IN MEXICO.

Reports Pouring in from Consuls All

Washington, June 12.—With 1,500 additional regular troops ordered to the Mexican border tonight, and reports of the rapid spread of anti-American feeling continuing to pour in from consuls aff over tooffers Mexico, administration officials made no attempt to disguise their uneasiness. It was officially admitted that there is growing alarm over what the agitation may produce and the possibility of an attack on General Persting's expedition.

No Attacks on Americans. No case of attack on the persons of American residents in Mexico has been reported, although there have been one or two attacks on vacant consulates and other American property.

Renewed Raids in Laredo Regien.

Part of the increasing apprehension here is due to the renewed raids in the Laredo region. Several reports dealing with the situation there have been received. Officials declined to reveal details; but they gave the impression of having reason to believe a serious purpose was behind the bandit raid on the Coleman ranch. New Force to Fill in Gaps, The new force sent to join General Funston's border patrol, Secretary Ba-ker said, was to fill in gaps in the guard such as that near Laredo. It will be composed of ten companies of coast artillery and a battalion of engineers. The artillerymen will be withdrawn from fortifications between Portland, Me., and Sandy Hook, and the engineers go from barracks in this city. The secretary said there was no present intention of calling out addi-tional national guard regiments for border duty.
